Already have an account? [Click here to sign in.](#)

Click on “CERN single Sign-On” to create an account

[instructions continue on next page]

3. Now you see:

The screenshot displays the CERN login interface, divided into two main sections. The left section, titled "Log in with your CERN account", contains a "Username" input field, a "Password" input field, a "Forgot Password?" link, and a blue "Log In" button. Below this is a reminder box stating: "Reminder: you have agreed to comply with the CERN Computing Rules, in particular OCS. CERN implements the measures necessary to ensure compliance." The right section offers alternative authentication methods: "Two-factor authentication" with a "Log in with Two-factor" button; "One-click authentication" with a "Log in with Kerberos" button; "Authenticate through your home institute" with an "eduGAIN" button; "Log in with your social account" with buttons for Google, LinkedIn, GitHub, and Facebook; and "Log in with your email" with a "Guest access" button.

If you have a CERN account, login on the left-hand-side.

If you don't have a CERN account:

- use **eduGain** on the right-hand-side to login with the account of your institution (it really works for many universities and labs),

or

- use **Guest access** on the lower right side.
