

INT Event Proposal 2026

You must complete this entire form at one time and submit the proposal in order to save the data. After the proposal is submitted, Google Forms will send a confirmation notice to the email address submitted in the proposal & include an edit link. Organizers can continue to edit their proposal prior to the application deadline. Note that every time an edit is submitted Google Forms will generate a new confirmation notice & link. Please make sure to use the most current edit link because they are unique to each submission. Previous link(s) will no longer be valid.

Please allow yourself time to complete this form and submit. All fields should be filled out completely before the application deadline or your proposal may not be considered.

To complete this form, please have the following information prepared:

- Organizers info: names, institutions, and email addresses
- How many program / workshop weeks requested
- Information on embedded workshop (if applicable)
- Preferred time period and alternate options
- Designated lead organizer and workforce development plan
- Key goals for the event
- How the proposed event will impact nuclear physics, physics in general, and other fields of research
- Why event topic is important and timely
- Names of prospective participants
- Scientific motivations (as an attached PDF, up to 5 pages): can be uploaded using this form or emailed to intmail@uw.edu.

Please enter an email address to receive this submission's edit link. Remember to only use to most recent edit link.

Proposal submission deadline: November 30, 2026

Proposal Details

Event Title *

What is the title of the program/workshop?

Your answer

Event Type *

Choose

[Select workshop \(1 week\), shorter program \(2 weeks\), or long program \(3-4 weeks\)](#)

Subfields of Nuclear Physics *

Which of the following subfields of nuclear physics will be covered? Please check all that apply.

- ☐ Fundamental symmetries
- ☐ Hadron structure and high energy QCD
- ☐ Nuclear structure and reactions
- ☐ Nuclear astrophysics
- ☐ QCD under extreme conditions
- ☐ Novel computing methods including AI/ML
- ☐ Other: _____

* Indicates required question

Longer Program with Embedded Workshop

During program weeks, we can host up to 15 participants per week.

During an embedded workshop week, we can provide financial support for up to 20 participants and can host up to 40 total participants. Organizers that would like more participants are encouraged to find supplemental funding.

Number of Workshop Participants *

Enter the expected number of participants.

Your answer

Workshop Topic and Justification *

Indicate the topic of your workshop and provide justification for why an embedded workshop is needed.

Scientific Organizers

Please designate a **lead organizer** for your event.

- The 'lead organizer' agrees to liaise with the program coordinator. This designation is only internal and does not imply hierarchy among the organizers.

We will only provide travel support for up to 3 organizers.

NOTE: All organizers should plan on attending at least half of the weeks of the event.

Lead Organizer *

Please enter their name, institution, and email address.

Your answer

Co-organizers *

Please list 2 co-organizers (name, institution, and email address).

Your answer

Workforce Development Plan *

The INT and its National Advisory Committee strive to advance the training of the next generation of scientists through INT activities. The proposed program/workshop should aim to provide early-career researchers, including graduate students and postdoctoral fellows, with opportunities for scientific growth, collaboration, and skill development, preparing them for leadership in nuclear physics. Please provide us with a paragraph on how your program/workshop plans to accomplish these goals.

Scientific Justification

Scientific Motivations and Impact

What are the scientific motivations & impact for nuclear physics? Please submit a PDF file, not to exceed 5 pages. Please upload here or email intmail@uw.edu.

Please attach this document right before the proposal is finalized. Draft submissions are allowed without this PDF. Once the PDF is uploaded, the system will not allow modifications and you will need to email intmail@uw.edu.

Upload 1 supported file. Max 10 MB.

[Add file](#)

Desired Outcomes *

Provide a brief summary of the goals of the program or workshop. You will be able to elaborate on these in the scientific PDF document.

Your answer

Event Format *

Describe the format of the proposed event, e.g. the number of talks per day, discussions, etc.

Your answer

Why now? *

Provide a brief justification for why your program/workshop should be held now. In this context, please mention if there have been INT events on this or a closely related topic in the past 2 years.

Your answer

* Indicates required question

Participant Details

Please enter each participant in separate lines.

For junior participants, please add their status in parenthesis after their email.

Example: John Doe, INT, intmail@uw.edu (postdoc)

Key Participants *

List key participants and include their email addresses (at least 10 for programs, 20 for workshops). You may contact them to gauge their interest, but are not required to. We will email them separately to enquire about their availability during the proposed period.

Your answer

Junior Participants *

We would like to encourage organizers to include junior participants, including postdocs and advanced graduate students. How many junior participants do you expect? List their names and their current status (postdoc or graduate student).

Your answer

A copy of your responses will be emailed to the address you provided.
