

TAUP 2003

WORKSHOP SESSION ON NUCLEON DECAY (September 6)
Conveners: Mario Campanelli, Masato Shiozawa, Hank Sobel
Location: Physics Bldg. Room A114

Saturday, September 6

- | | |
|-------------|---|
| 14:00-14:30 | Experimental Review of Proton Decay
Chris Sterner (UC Irvine) |
| 14:30-15:00 | The Study of Neutrino Background to Proton Decay Using K2K 1kt Detector Data
Shunichi Mine (UC Irvine) |
| 15:00-15:30 | The Study of LANNDD at WIPP for Proton Decay and Neutrino Oscillations
David Cline (UCLA) |
| 15:30-16:00 | A Liquid Scintillator Detector for Proton Decay
Bob Svoboda (Louisiana State University) |
| 16:00-16:30 | A European Megaton project at Frejus
Luigi Mosca (European network for future underground labs) |
| 16:30-17:00 | Future and Proposed Proton Decay Projects
Masato Shiozawa (ICRR, University of Tokyo) |
